## 1. Welcome and Introduction

### Welcome to the Jordan Rally WRC 2010

The first weekend of April 2010 will once again be a proud moment for not only Jordan, but the entire Arab World, when we host the FIA World Rally Championship (WRC) for the second time.

We all thoroughly enjoyed welcoming the WRC family to Jordan in 2008 and we were delighted with the response received from officials, teams and the thousands of spectators that travelled in from across the world.

Our second edition will be something special too. We are working hard to present a spectacular event in our efforts to become a long-term partner to the FIA and the WRC.

Jordan has been one of the world's best kept secrets as a leisure and sporting destination until now. Our new friends that visited us in 2008 discovered a sightseeing bonanza and we hope that if you are visiting us in 2010, you will spend extra days experiencing a truly unique tourism oasis.

A warm welcome awaits one and all. We guarantee a rally experience with a difference as we bid to become established as one of the world's great sporting events. We look forward to April 2010 with great enthusiasm and I encourage you to come and visit us to be a part of our biggest social and sporting event of the year.

**His Royal Highness Prince Feisal Al Hussein**  
**Chairman**

## History and Statistics

- The first Jordanian Rally took place in 1964 and was something of a social occasion.
- The Rallies held in the sixties did not rely on speed to determine the winner, but were decided on the skills of navigation and best to the minute timing.
- In 1965 the first two-day rally was organised with overnight stop in the port city of Aqaba.
- In the sixties all rallies were held over asphalt road; there were no special rally cars during those days.
- The foundation for Jordan Rally was laid in the beginning of the 80's.
- The first International Jordan Rally was organised in 1981.
- Rallies in Jordan took a giant step forward in 1982 when the main event was granted international status by the "Federation International du Sport Automobile" (FISA). This resulted in foreign Competitors taking part for the first time.
- In 1983 the annual Jordan Rally was included in the newly established FIA Middle East Rally Championship.
- The International Jordan Rally (FIA Middle East Rally Championship) is considered a steppingstone towards stardom for many in the sport. Said Al Hajiri of Qatar achieved his first victory outside the Gulf region in 1983. A year later Mohammed Ben Sulayyem of the UAE achieved his first international victory in Jordan. The list includes names like Abdullah Bakhshab of Saudi Arabia, Sheikh Hamad Bin Eid Al-Thani and Abbas Al-Musawi of Qatar, in addition to Lebanon's Michel Saleh who won the Rally in 1981 and 1982.
- During the eighties, His Majesty King Abdullah II achieved best results among Jordanians by capturing 3<sup>rd</sup> place overall in 1986 and 1988. He won the Jordan National Drivers Championship during those two years to become the first ever to hold the title twice.
- The winning record in the Jordan International Rally (FIA Middle East Rally Championship) belongs to Mohammed Ben Sulayyem of UAE who won the Rally 12 times.
- In 2004 and for the first time, a Jordanian team was able to capture first place: Amjad Farrah with co-driver Khaled Zakaria.
- A big change in the organising of the event occurred in 2005, as the Jordan Motorsport Company took over the event and the intention to become a candidate for WRC was announced in Monte Carlo by HRH Prince Feisal Ibn Al-Hussein, chairman Of Jordan Motorsport Company.

- 2008 was a historic year for Motorsport when Jordan became the first Arab country to take its place among the elite as a round of the FIA World Rally Championship (WRC). Jordan is proud to have hosted a very successful and unique event in terms of the diversity of its special stages, as well hosting the Rally around historical and geological wonders, such as the Baptism site on the River Jordan, and the Dead Sea, the lowest point on earth.

## **Continuing a story of success in the WRC Era**

The 2010 Jordan Rally is a culmination of two years of hard work which follow Jordan's successful inaugural event in the WRC in 2008. Some of the stages have been reshaped and others replaced from the 2008 event in order to improve an already great variation of sensational special stages starting in the forests north of the capital Amman at altitudes of more than 1000 meters above sea level, and then concentrating in and around the Jordan Valley at around 400 meters below sea level, the lowest point on earth.

The heart of the rally will be centralized at the historic Dead Sea with the Service Park, Hotels, Rally HQ and Media Centre located within walking distance of each other. The stages, most of which are also under sea level, all fall within close distance of the Service Park to create one of the most compact rallies in the world.

To ensure that Jordan's many national treasures are captured, the event will enjoy a spectacular Ceremonial Start at the City of Jerash, one of the largest and best preserved examples of Roman architecture in the world.

Other world famous tourist attractions like the Baptism Site, the Jordan River and Mount Nebo will also come into the cameramen's focus.

The organisation put great importance into safety and promotional aspects and raised the standards of the event based on the few observations from 2008. While the Rally route is a very competitive one, still much care is taken to keep high interest in the activities at the Service Park, which will include some improvements and variations from 2008 as well.

The Finish Podium and Prize Giving will be held with the Dead Sea as backdrop to celebrate the uniqueness of the 2nd Jordan Rally WRC.

## **Jordan Rally updates:**

- Jordan is proud to have hosted a successful first WRC event in 2008 and is now listening to comments from various concerned parties to ensure an even more successful event in 2010.
- The Jordan Rally is a national initiative backed by all sectors of the Jordanian society.
- Jordan is looking forward with open arms to welcoming the world again for a unique sporting and leisure experience.
- All Special Stages lay within a circle of 75 Km diameter.
- All Rally facilities are at the Dead Sea, the lowest point on earth.
- All Rally facilities are located around Rally HQ.
- Remote results stations will be located along road sections to distribute updated results to spectators, media and Competitors.
- Live tracking of competing cars will be available at: [www.jordanrally.com](http://www.jordanrally.com).

**Jordan Rally has proven to be a foremost stamina challenge for Competitors on all areas, not just because of its spectacular stages, but also because it is “More than a Rally”.**

## 5. Service Park

### 5.1 Service Park in Jordan Rally WRC

During Jordan Rally WRC a centralized Service Park established in the area of HQ at the Dead Sea will be used for the whole duration of the Event. It is a multi-purpose area and all access roads are tarmac. Each team/competitor will be allocated a designated space at the Service Park, further information will be given in the Supplementary Regulations and Rally Guide 2.

### 5.2 Admission to Dead Sea Service Park

The Service Park will be opened on Sunday, March 28<sup>th</sup> 2010 at 12:00hrs for all Competitors. All parties are kindly asked to respect the opening hours. Competitors are kindly asked to remind all their team staff to always carry their Service Passes, as the Organiser will be checking on passes and service vehicles plates. During the Rally, only vehicles with affixed Service or Auxiliary plates will be given access to the Service Park. Auxiliary vehicles may only enter the Service Park to bring or collect personnel and/or equipment, except when they can be accommodated within the designated team area or locations shown by the Organiser as Auxiliary parking area.

During the Rally service vehicles are not allowed to move in the Service Park.

Teams or Tyre Manufacturers wishing to bring equipment or sea containers to the Service Park area before the given opening time must inform the organiser thereof. Should the organiser not have received such notification, we cannot guarantee any access to the area. All costs of moving the equipment either within or outside the Service Park to its final position will be borne by the relevant owner of the equipment.

### 5.3 Facilities in the Dead Sea Service Park

The Organiser will be providing the following facilities in the Service Park:

- General security in the Service Park area.
- Power supply.
- Toilet facilities.
- WLAN connection.
- First aid station with 2 doctors.
- Catering.
- Arabic hospitality tent.
- Results station.
- Waste collection.
- Water supply.
- Car wash.
- Phone lines (analogue, ADSL and ISDN).

## 5.4 Service Facilities' Order Procedure

The following procedure must be followed by all customers ordering services through the organiser:

- Place your order using the form on the Event website on March 14<sup>th</sup> 2010 18:00 at the latest.
- Within 5 working days from receiving your order, the organiser will send you an invoice for the services ordered.
- This invoice must be paid by the 28<sup>th</sup> of March 2010.
- For all telephone connections a deposit will be collected at the Administrative Checks for covering the communication costs. Any difference between the actual costs and the deposit will be regulated after the event.
- Competitors wishing to use joint service areas must notify the Organiser by March 14<sup>th</sup> 2010.

## 5.5 Security

The Organiser has arranged a security company for the general security at the Service Park. For special guarding at your designated area, please contact the Organiser.

## 6. Two – Way Radio

GSM, analog and digital telephones are exempted from licensing, provided they fulfill the requirements of relevant equipment standards and specifications. The use of all other kinds of radio transmitters is subject to a license issued by the Jordanian Communications Regulatory Authority. The Authority shall be notified of the frequencies in the equipment in question, upon which it will decide on assigning the customer a suitable frequency and will issue a license for the radio transmitter.

Throughout the Rally, the use of frequencies for amateur radio is prohibited.

At the Pre-Event Scrutineering, the radio transmitters and licenses will be inspected. Radio transmitters in private aircrafts will be inspected, too.

License applications available at: [www.jordanrally.com](http://www.jordanrally.com).

The applications for the use of radio transmitters are due on the 22<sup>nd</sup> of February 2010.

## 7. Fuel/Tyres

Information to be given in Rally Guide 2.

## 8. Import of Vehicles and Spare Parts

All foreign Competitors will have to report at the customs on their way in. All vehicles must have a valid carnet and a detailed packing list of all spare parts and tools.

It is preferable if all details are sent to the Organiser 3 - 4 weeks before the Rally. The information must include vehicles' details, date and port of entry. All info can be emailed to: [info@jordanrally.com](mailto:info@jordanrally.com) or faxed to the Organiser.

## 9. Helicopters

Only helicopters registered with the organiser are allowed to operate in this area.

All pilots using the helipads provided by the Organiser must attend the pilots' briefing and must acquire the Organiser's pilots' pack including an information manual containing time tables, maps and information about the Service Park, the Special Stages, GPS coordinates, refuel information, radio frequencies to be used etc. It will include also list of helicopters and pilots and the necessary ID plates for the helicopter.

The pilots' briefing will be at 20:00hrs on Wednesday, March 31<sup>st</sup> 2010 at Rally HQ.

The Registration form will be published on [www.jordanrally.com](http://www.jordanrally.com) It will also be sent on request, email to: [info@jordanrally.com](mailto:info@jordanrally.com). The form has to be submitted to the Event Organiser on March 18<sup>th</sup> at the latest.

Economy	
<b>Economy Overview</b>	Jordan is a small Arab country with inadequate supplies of water and other natural resources such as oil. Debt, poverty, and unemployment are fundamental problems, but King ABDALLAH II, since assuming the throne in 1999, has undertaken some broad economic reforms in a long-term effort to improve living standards. 'Amman in the past few years has worked closely with the IMF, practiced careful monetary policy, and made substantial headway with privatization. The government also has liberalized the trade regime sufficiently to secure Jordan's membership in the WTrO (2000), a free trade accord with the US (2000), and an association agreement with the EU (2001). These measures have helped improve productivity and have put Jordan on the foreign investment map. Other ongoing challenges include fiscal adjustment to reduce the budget deficit, broader investment incentives to promote job-creating ventures, and the encouragement of tourism.
<b>GDP</b>	Purchasing power parity - \$23.64 billion (2003 est.)
<b>GDP - Composition by Sector</b>	Agriculture: 3.6%, Industry: 29%, Services: 67.4% (2003 est.)
<b>Labour Force - by Occupation</b>	Agriculture 5%, Industry 12.5%, Services 82.5% (2001 est.)
<b>Agriculture Products</b>	Wheat, barley, citrus, tomatoes, melons, olives; sheep, goats, poultry
<b>Industries</b>	Expanding very rapidly. The main ones include Phosphate mining, pharmaceuticals, petroleum refining, cement, potash, cigarettes, light manufacturing, tourism
<b>Currency</b>	The Jordanian Dinar (JD) is divided into 1,000 Fils. (Some Jordanians refer to Piasters instead of Fils. There are 100 Piasters to the Dinar, so for example, 30 Piasters = 300 Fils. Notes: 1, 5, 10, 20 and 50 Dinars. Coins: 5, 10, 25, 50, 100, 250, 500, 1,000 Fils.

## 21.4 Medical Information

At the Administrative checks before the Rally all Drivers must present their Medical Certificate in accordance with the FIA medical standards, and as given to them by their own ASN. If you require any type of treatment you have to pay for the total cost of treatment. It is preferable to have an international medical insurance and if this is the case, acceptable evidence must be presented to the hospital

## 21.5 Weather Overview

Jordan is located 80 kilometers east of the eastern coast of the Mediterranean Sea. Its location between 29° 11'N and 33° 22'N, and between 34° 19' E and 39° 18'E with an area of 89329 km<sup>2</sup>, more than 80% is classified as arid areas.

The Badia lies at the eastern and most of the southern parts of the country and a range of mountains in the eastern side of Jordan River whose length is 330km in a valley of only 104km length. The mountains vary in elevation from 1250m in the North, to 900m in the middle and 1700m in the south. The Jordan rift valley, which is also called the Ghor, is totally below sea level varying from 200m in the north to 400m in the south. The Dead Sea is the absolute lowest area in the world (408m below MSL).

Jordan depends mainly on precipitation within the country. Average rainfall ranges from 600mm/years in the north to less than 50mm/year in the south.

The rainy season is between October and May. 80% of the annual rainfall occurs through December to March.

- **Climate:** Hot and dry summers with cool evenings. The Jordan Valley below sea level is warm during winter and extremely hot in summer. Rain falls between November and March, while colder weather conditions occur in December/January.
- **Required clothing:** Lightweight cottons and linens are advised between May and September. Warmer clothes are necessary for winter and cool summer evenings. Rainwear is needed from November to April.
- **During the month of April,** in the Dead Sea area, the average temperature is about 35°C during the day and 20°C during the night.
- **For the most up to date weather** information you can visit [www.jmd.gov.jo](http://www.jmd.gov.jo), which is obtained from the Bureau of Meteorology.
- **Sunrise/Sunset times**

Date	Sunrise	Sunset
1 April 2010	6:25	18:56
2 April 2010	6:24	18:56
3 April 2010	6:23	18:57

- **The Dead Sea's climate**

The Dead Sea's climate offers year-round sunny skies and dry air with low pollution. It has less than 50 mm mean annual rainfall and a summer average temperature between 32 and 39 °C. Winter average temperatures range between 20 and 23 °C. The region has weakened ultraviolet radiation, particularly the UVB (erythrogenic rays), and an atmosphere characterized by a high oxygen content due to the high barometric pressure. The shore is the low-

est dry place in the world. Proximity to the sea affects the temperature of a place because the sea temperature changes due to the penetration of the sun in the summer. During winter months, sea temperatures tend to be much higher than summer temperature and vice versa during summer months, this is the outcome of slow penetration from the sun into the sea as it is a huge mass and takes a long time to warm up. The region's climate and the unique conditions created by its low elevation have made it a popular centre for several types of therapies.

## **21.6 Goods and Service Tax**

A 16% sales Tax and 10% service tax are billed in Jordan.

## **21.7 Travel**

Royal Jordanian Airlines links Amman with many of the capitals of Europe, South Asia and the Arab World, and operates wide body jets to New York. Many other international air carriers also operate regularly to Amman. Queen Alia International Airport south of Amman is one of the modern facilities in the Middle East and is currently going a major expansion. Good international roads link Jordan with surrounding countries. Daily bus service and weekly Hejaz Railway trains connect Amman with Damascus. Taxi service is also available. Travel within Jordan is well-organised and agreeable. A good road system is constantly being expanded and upgraded, and most of the sites a visitor would want to see are at most within a few hours drive from Amman. Jordan's road signs are marked in English and Arabic, and there are petrol stations and rest houses at regular intervals throughout the country.

## 21.8 Shopping

Jordanian handicrafts symbolize a tradition of skilled workmanship and art that dates back many thousands of years. The most common Jordanian craft items include Madaba rugs, carved olive wood, mother of pearl, cross stitch embroidery, Palestine pottery, Hebron glass, silver jewellery, carved stone animals, Bedouin jewellery and artefacts, sheepskin and leather goods and Aqaba's coloured sand bottles. A walk through a downtown souk will bring you in touch with hundreds of small everyday bits and pieces that you may fancy to take home as a souvenir of your visit to Jordan.

## 21.9 Hotels and Rest houses

Jordan is well equipped with five and four star hotels throughout the country. The Ministry of Tourism and the Ministry of Supply control hotel and restaurant prices. Government rest houses with sleeping and dining facilities are located at key tourist sites throughout Jordan. Five star hotels are operated by local groups and well known international chains such as Intercontinental, Movenpick, Marriott, Kempinski, Sheraton, Four Seasons, Grand Hyatt, Forum and Trust house Forte.

## 21.10 Food and Drink

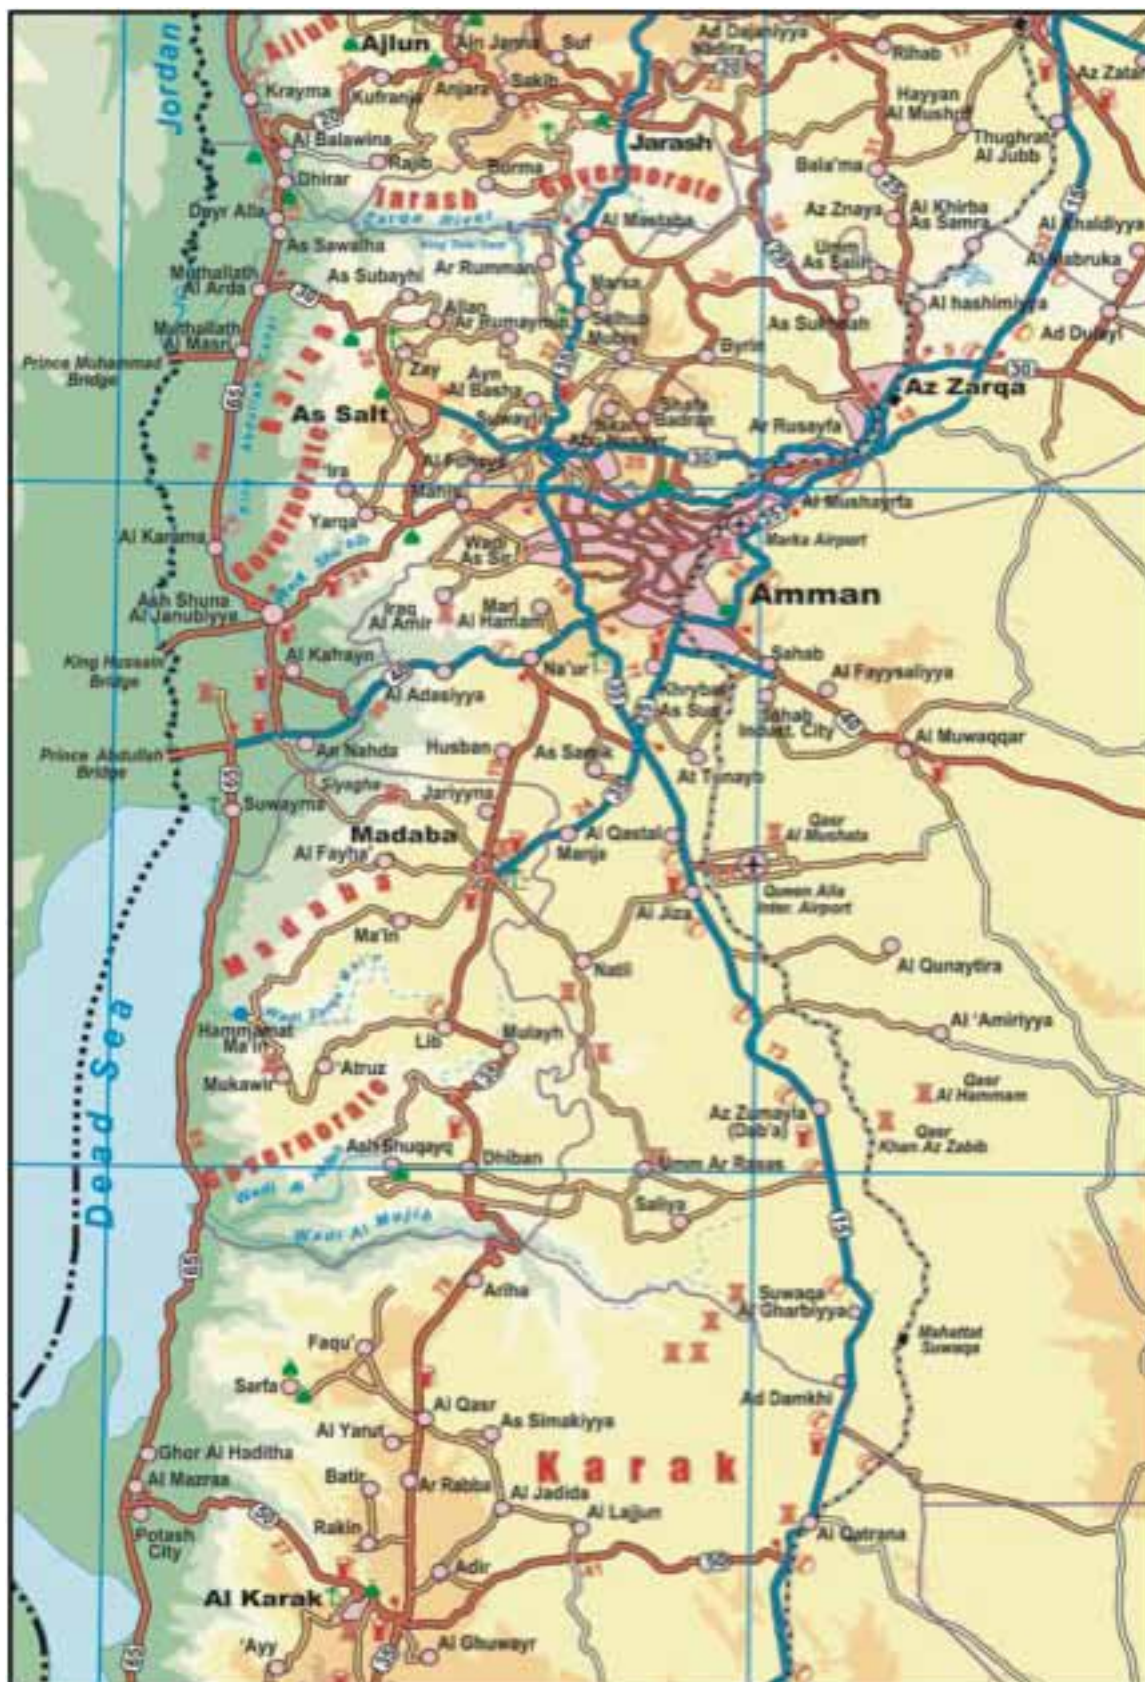

Eating well is part of the Jordanian tradition, and there are many fine restaurants that offer a wide selection of authentic Arabic food at reasonable prices. Hotels offer a mixed menu of Arabic and continental cuisine. Dishes to try are the national dish, Mansaf, a whole stewed lamb with cooked yoghurt sauce served on bed of rice; Musakhan, chicken with onions, olive oil, pine seeds and seasoning cooked in an oven on a thick loaf of Arabic bread; Maglouba, a meat or fish and vegetable stew served with rice, and of course, the basic Shish Kebab, pieces of lamb, marinated chicken and patties of minced and spiced lamb meat all cooked over a char-coal fire with onions and tomatoes.

## 21.11 Press

Arabic and English Jordanian newspapers, as well as foreign publications, are available at many newsstands. The English-language newspapers are The Jordan Times (daily) and The Star (weekly).

## 21.12 Jordan

### 21.12.1 Jordan Map

### 21.12.1 Jordan

From ancient city ruins to spectacular desert vistas, the sights of Jordan will blow you away.

Visits to historical sites provide glimpses of the majestic art and architectural masterpieces of great ancient civilizations. Unique natural land formations awe those who visit them. Major cities reveal yet another face of Jordan, as a modern country infused with the vivacity of traditional culture. Many of these attractions are still relatively undiscovered though, making it financially possible to cover the range of experiences available.

Rich in antiquity, from the stunning handiwork of Nabatean stonemasons to illustrious characters such as Moses and Lawrence of Arabia; from ancient lost cities and Biblical sites to desert forts, crusader castles and Byzantine-era mosaics, not to mention awesome scenery, a visit is made even more welcoming by its truly friendly people, who seem to continually call out 'Welcome in Jordan'. Nowhere on earth has witnessed more momentous events in history. Castles, palaces and the unforgettable 'Rose Red City' of Petra stand proud in the spectacular desert landscape. The pages of the Bible come to life on the shores of the River Jordan. Take it all in. Then catch your breath on a Red Sea beach or relax at one of our modern spa resorts.

Getting off the beaten track in Jordan is both easy and rewarding. Local hospitality embraces all travelers and unspoilt landscape is the perfect backdrop for walks, treks, cave and canyon visits or even chariot racing. Then put your feet up in the Dead Sea or relax at one of our modern spa resorts.

### 21.13 Dead Sea and other Rally Cities and Sites

#### Dead Sea - The lowest point on Earth

The sunset touching distant hills with ribbons of fire across the waters of the Dead Sea brings a sense of unreality to culminate a day's visit to the lowest point on earth, some 400 meters below sea level. To reach this unique spot the visitor enjoys a short, 55-kilometer drive from Amman, surrounded by a landscape which could be from another planet. En route a stone marker indicates «Sea Level», but the Dead Sea itself is not reached before descending another 400 meters below this sign. As the name suggests, the sea is devoid of life due to an extremely high content of salts and minerals. But it is these natural elements which give the waters their

curative powers, recognized since the 2,000 years ago. They also provide the raw materials for the renowned Jordanian Dead Sea Bath Salts and cosmetic products that are marketed worldwide. The Dead Sea is normally as calm as a millpond, with barely a ripple disturbing its surface, but it can become turbulent. During most days, however, the water shimmers under a beating sun, where rocks meet its lapping edges, they become snow like, covered with a thick, gleaming white deposit that gives the area a strange, surreal sense like that of another world.

The tourist facilities provide accommodations for changing into swimming attire so the visitor can wade into the warm, soothing water. Try as one may, it is impossible to sink in the thick brine which is four times as salty as regular seawater. One can, however, recline on the water to read a newspaper.

Seaside facilities include modern hotels with therapeutic clinics and restaurants /bathing / sport complex, meeting the needs of day visitors or parties wishing to spend the night amidst one of the most dramatic and moving landscapes in the world. Not far away, over the hills to the east, is another special water adventure: the Ma'in hot springs, now developed as a comprehensive spa, with a four star hotel, leisure, bathing and therapeutic facilities.

### **The Jordan River & Al-Maghtas (Baptism site)**

Jordan is a modern country, a holy river, and an ancient culture, a timeless physical and spiritual panorama of prophets, miracles, and human faith. The very name of the country JORDAN retains the unique baptismal aura of a holy river and a blessed land. God's command of righteousness and his promise of eternal love and peace through faith are deeply etched into the earth and memories of Jordan. Visitors and citizens daily walk through the plains, valleys, hills, mountains and streams whose names were forever fixed into human consciousness by the simple deeds and the profound messages of prophets: Abraham, Moses, Lot, Aaron, Elijah, Joshua, Jesus, John the Baptist, and others who walked this land and crossed its river during their missions on earth. Many of the sites where they performed miracles or reached out to ordinary people are identified, excavated, protected and easily accessible to visitors. For a religious pilgrimage or touristic visit to the Holy Land of Jordan, the Bible is more than a document of faith; it is also a gazetteer and a virtual road map of ancient places, people and events associated with this serene and spiritual land. Meandering through the Jordan Rift Valley is the River Jordan, a sacred stream of numerous symbols and historical events. The large loop in the Jordan River opposite Jericho has long been identified as the spot where Jesus Christ was baptized by John the Baptist. It is called Al-Maghtas in Arabic. Al-Maghtas is clearly located on the mosaic map found in Madaba church near Mount Nebo, which was discovered in the middle of the sixth century.

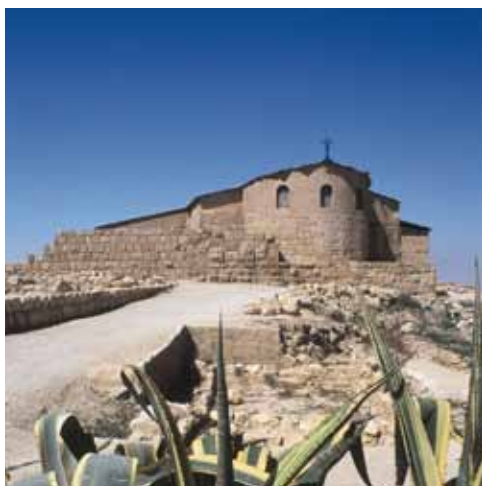

### Madaba, The ancient holy land

The Madaba of the Bible is today the small town of Madaba, only 30 kilometers south of Amman. Remains of the Roman road and civic architecture can still be seen in the midst of the modern town, but it is the Byzantine and Umayyad mosaics for which Madaba is best known. At the Greek Orthodox Church of St. George visitors may view the earliest surviving original map of the Holy Land, which was made around A.D. 560. In addition, there are other mosaic floors preserved throughout the town, as well as a fine local museum.

## Mount Nebo

Ten kilometers west of Madaba is the hilly district of Mount Nebo, on the western edge of the plateau with a spectacular view across the Jordan Valley and the Dead Sea.

One of the most revered holy sites of Jordan and the place where Moses was buried. A small

Byzantine church was built there by early Christians, which has been expanded into a vast complex. During his visit to Jordan in 2001, the Late Pope John Paul II held a sermon here that was attended by some 20,000 faithful.

## Jerash

In a remote, quiet valley among the mountains of Gilead lie the ruins of Jerash, at one time a city of the Decapolis, and the only one of that powerful league through whose streets and monuments we can wander and see them as they were in its heyday, untouched except by the hand of time and it is one of the most complete examples of a provincial Roman city to be seen anywhere.

The site now lies on a modern highway that links Amman with the northern boundary of the Kingdom towards Syria; the drive takes 40 minutes from Amman at a leisurely speed. As one approaches, it is after a corner of the highway that he is suddenly faced with a wonderful view of the ruins with the Triumphal Arch in the foreground. On the other side of the highway lies the modern town of Jerash. The history of Jerash goes back to prehistoric times. At the end of the second or early first century B.C. we have the first historical reference to Jerash.

## Petra

Petra was first established sometime around the 6<sup>th</sup> century BC, by the Nabataean Arabs, a nomadic tribe who settled in the area and laid the successive attempts by the Seleucid king Antigonos, the Roman emperor Pompey and Herod the Great to bring Petra under the control of their respective empires, Petra remained largely in Nabataean hands until around 100AD, when the Romans took over. It was still inhabited during the Byzantine period, when the former Roman Empire moved its focus east to Constantinople, but declined in importance thereafter. The Crusaders constructed a fort there in the 12<sup>th</sup> century, but soon withdrew, leaving Petra to the local people until the early 19<sup>th</sup> century, when it was visited by the Swiss explorer Johann Ludwig Burckhardt. Petra lies about 3-5 hours south of modern Amman, about 2 hours north of Aqaba, on the edges of the mountainous desert of the Wadi Araba. The city is surrounded by towering hills of rust-coloured sandstone which gave the city some natural protection against invaders.

The site is semi-arid, the friable sandstone which allowed the Nabataeans to carve their temples and tombs into the rock crumbling easily to sand. The colour of the rock ranges from pale yellow or white through rich reds to the darker brown of more resistant rocks. The contorted strata of different-coloured rock form whorls and waves of colour in the rock face, which the Nabataeans exploited in their architecture.

The New 7 Wonders Foundation has launched the first-ever global vote to choose 7 wonders out of 21 nominated ones. Petra was voted the second and we as Jordanians are thankful to all who voted for Petra.

The New 7 Wonders of the World were announced during the Official Declaration ceremony in Lisbon, Portugal on Saturday, July 7, 2007 - 07.07.07.
